

Camping Project

Computer Science 2

We're going to go camping! The date is set and all the buses are booked. There isn't a lot of time, so this will have to be a coordinated effort. Work together with your partner(s) to make sure that you have everything you need!

Checklist

- Food.java
- Equipment.java
- Log.txt
- Extras.java (if you are in a group of 3)

What You Have To Do

Write all the methods in the given files and make sure they work!

Do not change any of the method names.

You are only allowed to work with your group. Do not work with people outside of your group.

One person in your group should email me a .zip file containing the completed project before the deadline.

Rubric (Out of 50)

- +10: Your Log.txt is detailed and thorough.
- +8: You used main() to test your methods.
- +2: Your test cases are thorough.
- +30: Your methods run correctly.
 - For partial credit, make sure you include comments!

10 points will be taken off for every day it is handed in late.
